## Benefit from our know-how.

An optimum operation is absolutely necessary to get the maximum profit out of your new machine. Benefit from the DIMTER training know-how and prepare yourselves and your staff perfectly for the use of this new technology!

Our trainers are specialists with extensive experience in their field. You can be sure to learn most valuable practical knowledge during our trainings which you will not get anywhere else.

## Our experts will visit you:

### Volker von Kries

He works with DIMTER for 20 years now. He develops optimizing solutions and is responsible for the training of operators and service technicians.

Phone +49 (0) 7303 / 15-219  
 Fax +49 (0) 7303 / 15-243  
 E-mail volker.vonkries@dimter-weinig.de

### Florian Marschik

Educated at DIMTER and former service technician, he is now trainer for optimizing cross-cut saws.

Phone +49 (0) 7303 / 15-191  
 Fax +49 (0) 7303 / 15-243  
 E-mail florian.marschik@dimter-weinig.de

## Our experts will ...

- ... analyze your production process
- ... make out potentials
- ... optimize your production process
- ... advise you on the possibilities of data transfer between office PC and production – for exact registration of production data

All this will contribute to increase your timber yield and obtain highest possible profit.

A visit of our experts in your factory will be worthwhile for you!
