

WEINIG DIMTER

Packaging days Focused on cutting

Invited Lecturers:
HPE Federal Association, M/s Allgaier

Welcome to Illertissen

14th and 15th September 2016

Welcome

to the WEINIG DIMTER Packaging Days

Dear Sir or Madam,

thousands of valuable goods are transported around the world every day. To get them safely from A to B, packaging concepts are becoming increasingly important to the distributor.

To produce packaging materials efficiently, suitable manufacturing machines and a precise production planning system is essential.

WEINIG DIMTER - a product unit of WEINIG – specialized in cross-cut saws and gluing presses for solid wood processing. For over 30 years we have advised industrial and craft producers in these areas.

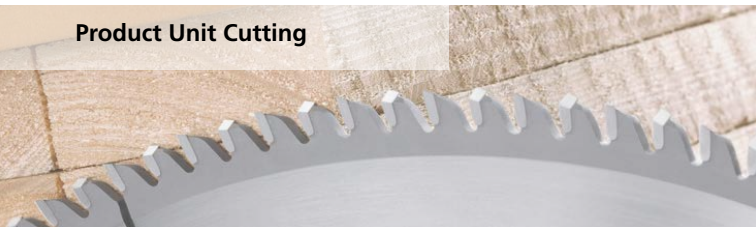

During the WEINIG DIMTER Packaging Days we will present everything around the manufacturing of wooden packaging products and pallets. You will be able to listen to experts and you will see how lengths and widths are cut and how cutting processes are optimized – all for your perfect packaging.

We cordially invite you to join our Packaging Days on 14th and 15th September 2016 in Illertissen, where we would like to show you exciting new options on productive packaging manufacturing for your business.

We look forward to welcoming you!

Your WEINIG DIMTER-Team

Product Unit Cutting

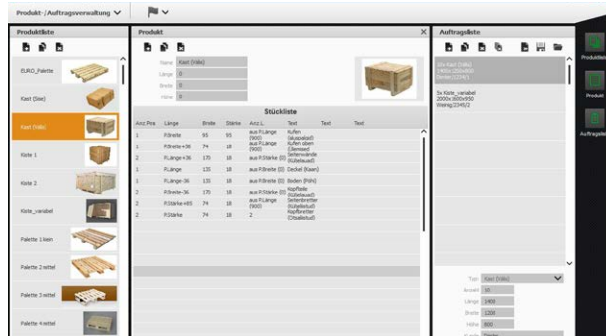

Cutting of wooden packaging

Cutting of wooden packaging of all kinds

Producing packaging materials and pallets

Packaging is necessary for protection and transport of goods. WEINIG Dimter machine solutions enable you to offer your customer customized packaging of all kinds including wooden boxes, crates, push-on frames, pallets, transport bases with special designs for sensitive products – safe, robust and in any size.

The OptiPal software optimizes your raw timber consumption

Optimized cutting by the WEINIG DIMTER software tool OptiPal

Hard or softwood, planed or not – WEINIG Dimter cross-cut saws cut every type of wood and what is more – the OptiPal optimizing software offers:

- improved production processes
- increased material yield and
- higher level of transparency in the production process

Machine Highlights

Highlight: Fully automated cutting line

Only for a short term at WEINIG Dimter: New high-speed cutting line with three through feed saws OptiCut 260 and stacking units

High-speed cutting line with three OptiCut 260

You will see a high-speed cutting line for a fully automated pallet production. Machine arrangement: Destacker unit and three through feed saws OptiCut 260.

Pusher saw OptiCut S 60

NEW: OptiCut S 60 with Flex+ - aggregate

First-time demonstration: Pusher saw OptiCut S 60 with Flex+-aggregate

Your benefit:

- The Flex+-aggregate allows width and length cutting only on one machine
- Saving of costs and space, efficient production
- The integrated full-optimization guarantees an efficient timber yield
- Tracking of parts via outfeed monitor

All around cutting

Program

All from one source

Scanning, cutting and gluing. All from one source – from the base machine to the fully automated cutting line. Explore this product field of WEINIG at WEINIG DIMTER. On 14th and 15th September 2016 all specialists will come to Illertissen. Come and join us!

Experience the machines live.
Gain knowledge.
Profit from the experience exchange with operators and specialists.

Demonstration machines

WEINIG DIMTER - cross-cutting and gluing

Automatic length stop system EasyStop, undertable cross-cut saw OptiCut C 50 and OptiCut C 700, cross-cut saws with positioning pusher OptiCut S 50, OptiCut S 60 with Flex+ - aggregate, OptiCut S 90 with packet stacker, OptiCut S 90 Superdrill, through feed saws, OptiCut 260, OptiCut 450 Quantum, automation, gluing presses ProfiPress L II, ProfiPress T Next Generation, packer software OptiPal and other software and marking solutions

Raimann - ripping

Moving blade rip saw VarioRip 310, FlexiRip with FlexiCut

Luxscan- scanning and optimizing

Scanner EasyScan+ integrated in one OptiCut 450 Quantum

Program 14th/15th September 2016

| | |
|---------------|---|
| 10:00 a.m | Welcome by WEINIG Dimter Managing Director Dr. Mario Kordt |
| 10:15 - 10:45 | Specialist lecture Federal Association of Wooden Packaging, Pallets and Export Packing (HPE) Managing Director Jan Kurth from HPE |
| 10:45 - 11:15 | Specialist lecture M/s Allgaier Allgaier, Tim Fleige |
| 11:15 - 11:45 | Innovations in cutting Presentation of Highlights |
| 11:45 - 13:00 | Live machine demonstrations |
| 13:00 - 14:00 | Déjeuner |
| 14:00- 14:30 | Specialist lecture Federal Association of Wooden Packaging, Pallets and Export Packing (HPE) Managing Director Jan Kurth from HPE |
| 14:30 - 15:00 | Specialist lecture M/s Allgaier Allgaier, Tim Fleige |
| 15:00 - 15:30 | Innovations in cutting Presentation of Highlights |
| from 15:30 | Live machine demonstrations |
| from 17:30 | Get together |
