

WELCOME

TECHNIK  
WEINIG

**HOLZ-HANDWERK**

Nuremberg  
21 to 24 March 2018

Hall 9

## Welcome

to the WEINIG Group at the trade fair in Nuremberg.

Modern production technology is more and more capable - but also more and more complex. Simple process handling is, therefore, a prerequisite for efficiency. That is why we will be presenting perfect solutions for solid wood and panel processing to you in Nuremberg that share an emphasis on intelligent production, integrated machine concepts and innovative operating systems. In addition, we will be exhibiting innovations offering performance levels in the entry segment that even until recently were reserved for high-end machines. Every reason, then, to THINK WEINIG and pay us a visit. Whether your requirements are in planing and profiling, cutting, window production or panel production.

We wish you a pleasant journey and an enlightening visit to our stand.

Yours

Gregor Baumbusch  
Chief Sales and Marketing Officer

## The WEINIG Group: Machines and systems for solid wood and panel processing

Innovative state-of-the-art technology, comprehensive services and system solutions through to turnkey production lines: the WEINIG Group is your partner for profitable processing of solid wood and panels.

SOLID WOOD	PANELS
	
<p>Planing, profiling, tools, sharpening</p> <p>Cutting, scanning, optimization, gluing</p> <p>Windows, doors, CNC technology</p> <p>Finger jointing, jointing technology, end profiling</p>	<p>Edge banding</p> <p>CNC processing</p> <p>Vertical and horizontal cutting solutions</p> <p>Automatic panel handling</p>

MindSphere | World

Wood is in stronger demand than ever as a material. Energy efficiency and sustainability are excellent selling points for the future. To exploit these, however, wood processing must face and overcome the challenges of a new world of production. In the age of customization, production systems must be capable of producing very small batch sizes and series production equally profitably. This is equally applicable to the wood industry as it is to small businesses in the wood sector.

The cloud-based, open IoT operating system **MindSphere** and automated, networked process sequences are the most important prerequisites for achieving a solution. A central component is **WEINIG W4.0 digital**, which ensures extensive exchange of information between machines and with people. WEINIG has always set benchmarks in wood processing and remains the right partner and advisor for you in this vital stage of development.

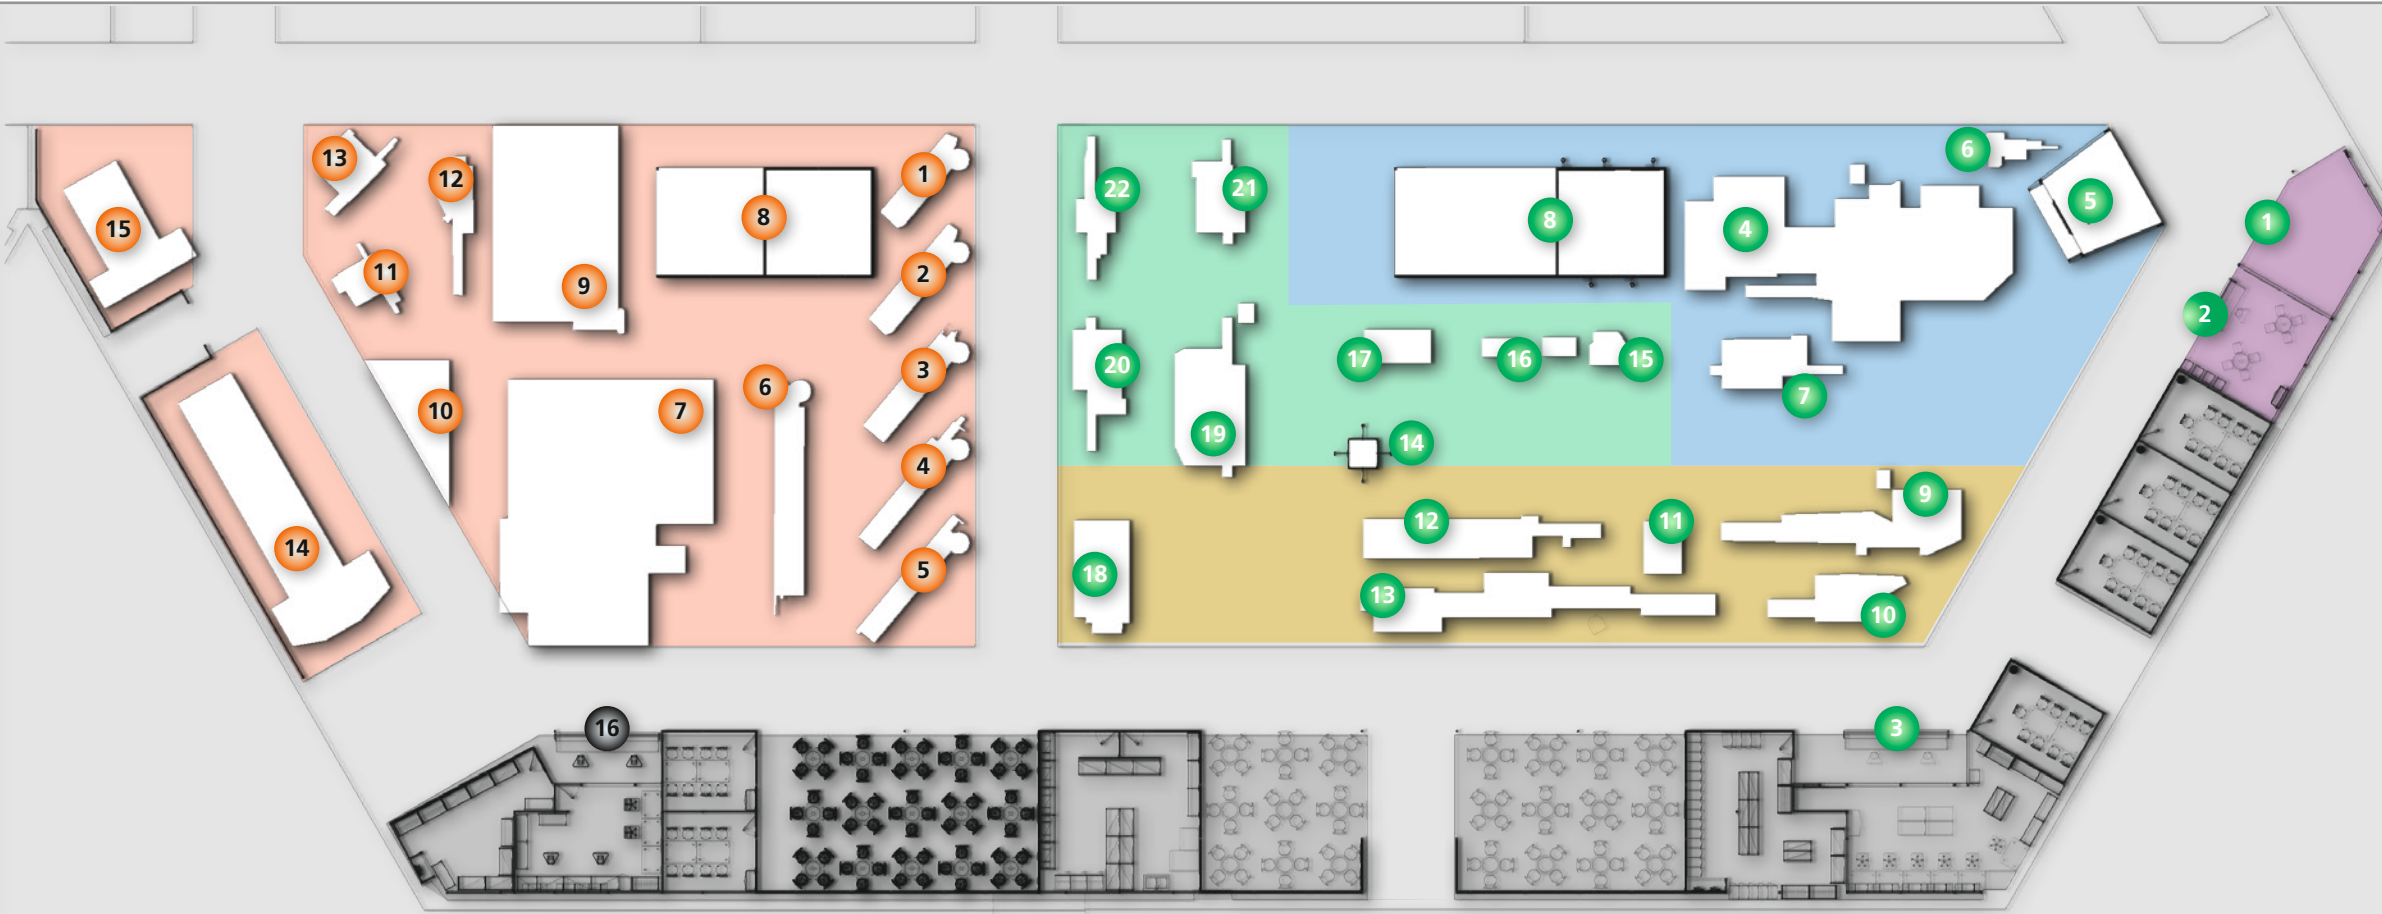

# Nuremberg Trade Fair Overview

- FENSTERBAU FRONTALE
- HOLZ-HANDWERK

Another app? Yes, but this one has multiple benefits. The WEINIG Service app offers a number of intelligent functions for woodworking professionals to help in their day-to-day work. These include angle calculations or remaining length calculations for edge banding.

For the WEINIG customer, the app also offers the benefit of perfect connection to the WEINIG world and all of its services. The WEINIG Service app can be downloaded free of charge from the App Store or the Google Play Store. Then all you need to do is register with WEINIG.

### Event location

Messezentrum, 90471 Nuremberg, Germany  
[www.holz-handwerk.de](http://www.holz-handwerk.de)

### Directions

[www.holz-handwerk.de/de/messeinfo/anreise](http://www.holz-handwerk.de/de/messeinfo/anreise)

### Address for satnav

Karl-Schönleben-Straße, 90471 Nuremberg or point of interest 'Messe' (exhibition center)

### Opening times

**NEW** 10:00 - 18:00, Saturday until 17:00

### WEINIG trade fair stand

Hall 9, Stand 304 / 308  
 Daily (except Saturday) from 18:00, Happy Hour in the WEINIG Bistro

### Tickets
